

# TIPS OF THE TRADE

## CORRECT AIRLESS HOSE SIZING IS CRITICAL FOR PRODUCTIVE AND EFFECTIVE SPRAYING

### A GOOD Blast Hose

- High quality rubber – longer life, good anti-static properties
- Safe and reliable construction – maintains strength and flexibility
- Reasonable price – increase your profits.

### REMEMBER:

*Recycled and poor quality rubber hose could last only 150 – 200 hours.*

*High quality rubber hose can last 400 – 500 hours.*

▲▲  
The bitterness of poor quality is remembered long after the sweetness of low price has faded from memory.
