

BLASTSHIELD ACADEMY

STRENGTHEN YOUR TEAM TO MASTER MAINTENANCE
AND ELEVATE EQUIPMENT PERFORMANCE.

COMPREHENSIVE TRAINING.

MAXIMIZE PERFORMANCE AND MINIMIZE DOWNTIME WITH EXPERT TRAINING DESIGNED FOR YOUR OPERATIONS.

KNOWLEDGE OF THE INDUSTRY

Gain a comprehensive understanding of abrasive blasting operations and maintenance practices to ensure your team can optimize performance and troubleshoot effectively. Our courses are led by seasoned experts who bring a wealth of experience and insights to help your team deliver exceptional results.

AT THE END OF THIS TRAINING, PARTICIPANTS WILL:

- ▶ Quickly recover from downtime
- ▶ Troubleshoot electrical systems (robotics and booth control) and mechanical components.
- ▶ Optimize systems to maximize equipment efficiency and personnel productivity.
- ▶ Understand preventative and predictive maintenance practices.

THE PACKAGE

BlastOne offers a cutting-edge training program designed to elevate your team's skills and knowledge. No prior training is required to enroll. This course provides everything needed to keep your equipment and processes running efficiently.

KEY OBJECTIVES:

- ▶ General understanding of abrasive blasting operations.
- ▶ A maintenance-focused perspective of the blast booth.
- ▶ Inspection and troubleshooting techniques for various booth components.
- ▶ Preventative maintenance strategies for electrical and mechanical systems.

HANDS-ON TRAINING

Your trainees will gain practical, hands-on experience with the latest equipment and systems. This approach ensures they can immediately apply their learning in real-world situations, making troubleshooting and maintenance second nature.

AGENDA HIGHLIGHTS:

- DAY 1:** Overview of blasting processes, theory, and reclaim system maintenance.
- DAY 2:** Blasting systems training, safety systems troubleshooting, and dust collector maintenance.
- DAY 3:** Advanced robotics systems training, preventative maintenance, and spare parts review.

ELEVATE YOUR TEAM'S SKILLS TO MAXIMIZE PERFORMANCE AND MINIMIZE DOWNTIME

3 DAYS. THAT'S ALL IT TAKES.

DAY 1 FOUNDATIONS, DAY 2 MASTERY,
AND DAY 3 ADVANCED SOLUTIONS.

FOUNDATIONS OF EXCELLENCE

INTRODUCTION TO BLASTONE

- ▶ Tour & Course Overview

3 HOURS

BLASTING OVERVIEW

Trainer: Vince Pezzott

- ▶ How to Optimize Blasting Processes
- ▶ How to Verify Blasting Performance
- ▶ Blasting Theory

4 HOURS

RECLAIM SYSTEMS MAINTENANCE

Trainer: James Longnecker

- ▶ Inspection & Troubleshooting of Underfloor Conveyors
- ▶ Inspection & Troubleshooting of Bucket Elevators
- ▶ Inspection & Troubleshooting of Hoppers

MASTERING BLASTING SYSTEMS

3 HOURS

BLASTING SYSTEMS

Trainers: James Longnecker & Jeff White

- ▶ Blast Hose & Nozzle Inspection
- ▶ Inspection & Troubleshooting Blast Pots
- ▶ Controls Overview, Alarms, and Controls Troubleshooting

1 HOUR

SAFETY SYSTEMS OVERVIEW

Trainers: James Longnecker & Jeff White

- ▶ Troubleshooting Safety Circuits
- ▶ Functional Review of Safety Components
- ▶ Deadman Troubleshooting

3 HOURS

DUST COLLECTOR SYSTEMS

Trainers: James Longnecker & Jeff White

- ▶ Inspection, Troubleshooting & Adjusting an Air Wash
- ▶ Inspection & Troubleshooting Dust Collectors

ADVANCED SYSTEMS & MAINTENANCE

5 HOURS

ROBOT SYSTEMS

Trainer: Jeff White

- ▶ Inspection & Troubleshooting
- ▶ Alarm Codes & Troubleshooting Steps to Clear
- ▶ Preventative Maintenance

1 HOUR

SPARE PARTS REVIEW

Trainer: Mark Kenimer

1 HOUR

COMMON PROBLEM AREAS

Trainers: James Longnecker & Jeff White
